Note: The Anti-Drug Abuse Act provides financial and technical resources to State and local units of government, as well as the Federal Government, to engage in the Nation's fight against drugs. The purpose of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program is to assist States and units of local government in carrying out specific programs that offer a high probability of improving the functioning of the criminal justice system, and to enhance drug control efforts at the State and local levels. Special emphasis is placed on nationwide and multi-jurisdictional projects and programs that advance national drug control priorities. In accordance with Sec. 501 (b) of the Act, the States may award formula grant funds to State agencies and units of local government for the purpose of enforcing State and local laws that establish offenses similar to offenses established in the Controlled Substance Act (21 U.S.C. 801 *et seq.*) and to improve the functioning of the criminal justice system, with emphasis on violent crime and serious offenders. Grants may provide personnel, equipment,

training, technical assistance, and information systems for more widespread apprehension, prosecution, adjudication, detention, and rehabilitation of persons who violate such laws, and to assist the victims of such crimes (other than compensation). (Source, 1995, pp. 1, 2.)
