Note: See Note, table 1.1. For survey methodology and definitions of terms, see Appendix 1.

^aData for local governments are estimates subject to sampling variation.

^bThe total category for each sector, and for the total justice system, excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation that would result if an intergovernmental expenditure of a government were tabulated and then counted again when the recipient government(s) expended that amount. The intergovernmental expenditure categories are not totaled for this reason.
