Note: These data were collected by the U.S. Department of Justice, Bureau of Justice Statistics through the National Prisoner Statistics (NPS) program. The NPS program provides yearend data for the prisoner populations of the 50 States, the District of Columbia, and the Federal Bureau of Prisons. These data represent the custody population, which includes only those prisoners housed in a jurisdiction's facilities. The District of Columbia did not report either the number of HIV/AIDS cases for 1992-95 or AIDS-related deaths for 1995. Readers should note that HIV testing policies vary across jurisdictions. Some jurisdictions mandate testing of all prisoners, some provide for testing of a sample of prisoners, and others test prisoners under specified conditions. The reported number of cases of known HIV infection in part reflects each jurisdiction's testing policies. Some data for 1993 and 1994 have been revised by the Source and will differ from previous editions of SOURCEBOOK.

^aPercent calculations for the United States totals, the State totals, and the regional totals exclude prisoners in jurisdictions that did not report data for HIV/AIDS cases.
